

COMPANY PROFILE • 2026

Technology that keeps your business moving.

Devices, networks, security, web and Microsoft 365 — one partner for every part of your ICT.

ABOUT US

Who we are

Techashi Solutions Ltd is a technology company that helps businesses, institutions and homes get more out of technology. We supply the devices people work on every day, design and install the networks and security systems that protect them, and build the websites and digital tools that help them grow — with practical advice at every step.

OUR MISSION

To deliver reliable, affordable technology solutions and honest advice that let our clients focus on running their business.

OUR VISION

To be the trusted technology partner for growing businesses — from the first laptop to the full office network.

Our services at a glance

01

10 Forecourt management systems

WHAT WE DO · INFRASTRUCTURE

Networks & Security

Network design & installation

Fast, stable and secure networks for offices, shops and homes — planned around how you actually work, installed neatly and documented properly.

- Site survey & network design
- Structured cabling & racks
- Office-wide WiFi coverage
- Routers, switches & firewalls

CCTV sales & installation

Protect your premises, stock and people with surveillance you can check from anywhere. We supply the right cameras for each spot and install them end to end.

- Indoor & outdoor IP cameras
- NVR / DVR recording setup
- Remote viewing on your phone
- Maintenance & upgrades

WHAT WE DO · HARDWARE

Devices & Support

Tech gadget sales

Smartwatches, accessories, storage, chargers and everyday tech — genuine products with honest advice on what suits you.

New & refurbished PCs

Laptops and desktops for every budget. Refurbished units are tested and prepared, so you get dependable machines for less.

PC servicing & maintenance

Keep your machines running. Diagnostics and repairs, upgrades, OS installs, cleaning and scheduled maintenance for office fleets.

REPAIRS · UPGRADES · PREVENTIVE CARE

WHAT WE DO · DIGITAL

Digital & Advisory

Website creation

Modern, mobile-friendly websites that present your business well and are easy for customers to find.

Graphic design

Logos, company profiles, flyers, social media posts and print material that give your brand a consistent, professional look.

Microsoft 365 consultation

Licensing advice, setup and migration of business email, Teams, OneDrive and SharePoint, plus security settings and staff onboarding.

Tech consultancy

Independent advice on IT strategy, systems selection, budgets and security — so every technology spend makes sense.

Not sure where to start? We begin with a conversation about your goals, then recommend only what you need.

WHAT WE DO · FUEL RETAIL

Forecourt Management System

A complete system for running fuel stations. It connects your pumps, tanks and payments so every litre sold is recorded, paid for and reported — giving you full control of stock, cash and staff at one site or across a whole network.

■ Pump & dispenser control

Authorise and monitor every pump from one console, litre by litre.

■ Tank gauging & wet stock

Automatic tank readings, delivery records and variance alerts.

■ Shift & attendant management

Shift opening and closing, attendant tags and accurate cash-ups.

■ Cashless payments

M-Pesa, card and fleet-account payments matched to each sale.

■ Real-time reporting

Sales, stock and margins per station, viewable from anywhere.

■ ERP & eTIMS integration

Sales posted to your ERP, such as SAP Business One, and KRA eTIMS.

Supply, installation, staff training and ongoing support — for a single station or a whole network.

WHY TECHASHI

Why clients choose us

01

One partner, end to end

Devices, networks, security and web from a single team that knows your setup.

02

Business-first advice

We recommend what fits your needs and budget — not the most expensive option.

03

Quality equipment

Genuine products and tested refurbished machines you can rely on.

04

Support after the sale

Installation is the start. We stay on hand for servicing, upgrades and questions.

Let's talk about your next project.
